

ICP, Quarterly News Letter

October, 2015

August 2015 Prior Lake, MN

ICP has signed a definitive agreement to sell ICP's OmniCommerce Services to Hallmark Trust Limited. ICP will be installing our OmniCommerce switching hardware and software platform that will allow Hallmark Trust the ability to process a full suite of payment processing products including ATM processing, point of sale, cash advance processing, along with loading/reloading of Hallmark prepaid cards via ATMs and a complete card management system.

ICP has also signed a new development and support agreement with Hallmark Financial, a sister company of Hallmark Trust, which calls for ICP to develop and support a new innovative multi-function kiosk that will issue/reload MasterCard products, process ATM transactions, recycle cash accepted, and process cash advances transactions.

ICP OmniCommerce Services - News

ICP is now offering our custom casino gaming products and services to our banking clients in the Caribbean and Latin America countries. With ICP, your financial institution can add Signature Credit Card and Pinned Debit Card Cash Advance to your ATM or Kiosk product offerings. These Cash Advance Services will add 20% to 30% more cash to the casino floor vs. traditional ATM processing, which every casino desires! ICP's cash advance software will allow an unsuccessful ATM withdrawal to be prompted into processing a cash advance transaction which puts more cash to the casino floor which every casino desires.

ICP offers an ATM/Kiosk solution that will work on a number of ATM manufactures without any changes to the software. Our casino cage application is cloud based but can also run in your designated data center if desired.

ICP is now offering a customer loyalty reward system for both ATM and merchant processing to our OmniCommerce Services. ICP's loyalty program does not require a customer enrollment or the addition of a customer rewards card for the end user to receive rewards.

If you have questions regarding on how to support EMV (Europay, MasterCard, & Visa) or NFC (Near Field Communication) payment processing for (Apple Pay, Android Pay, etc.) for your point of sale and ATM customers, please contact ICP so we can be of assistance.

As of July 14th 2015, Microsoft SQL Server 2003 is no longer supported. <http://www.microsoft.com/en-us/server-cloud/products/windows-server-2003/> This coming April 12th 2016, Microsoft SQL Server 2005 will no longer be supported. If your organization is still running Windows Server 2003 or SQL Server 2005, please contact ICP at bjohnson@icp-inc.com or 952-777-4255 to schedule a migration to Windows Server 2012 and/or Microsoft SQL Server 2012 or 2014. Migrating to 2014 SQL Server has been benchmarked to be 13 times faster than SQL Server 2005¹ and 5.5 times faster than SQL Server 2008. Here are the top ten reasons to upgrade to SQL Server 2012 or 2014. http://blogs.technet.com/b/dataplatforminsider/archive/2015/10/05/top-10-reasons-to-upgrade-from-sql-server-2005.aspx?wt.mc_id=WW_CE_MOD_OO_SCL_TW

ICP also offers Trust Accounting Software Services to the Caribbean and Latin America countries via Delta Data, an ICP Company. ICP acquired Delta Data, Inc. in 2014. ICP has developed a new version of the Trust Accountant with many enhancements that utilize the latest development and cloud processing technologies. Our new Trust Accountant™ software is built to run on Microsoft Azure Cloud Computing Platform, or as a server based application within your organization.

About Delta Data, Inc., an ICP Company <http://www.deltadatatrust.com/>
