**ICP PARTNERS WITH IGT TO OFFER CUSTOMERS UNIQUE OPPORTUNITY TO TRANSFER ACCOUNT BALANCES TO BANK CARDS.**

*- ICP to integrate its OmniCommerce Processing Solutions into several IGT systems solutions to enhance casino player experience and create additional marketing opportunities and revenue streams for casino operators -*

MINNEAPOLIS, MINNESOTA – July 13, 2017 – Innovative Computer Professionals (“ICP”) a FinTech Corporation and its affiliates: Security State Bank of Atkin, MN, Hallmark Trust Limited of Turks & Caicos – both Key Principal Members of Mastercard – announced today that it has partnered with IGT (NYSE: IGT) to integrate its OmniCommerce® Software Platform into several of IGT’s leading casino systems solutions. With the combination of ICP technologies and IGT’s systems solutions, casino patrons can transfer casino funds onto ICP-issued bank cards to allow them to spend their cash.

Through the partnership, ICP is integrating its OmniCommerce® Software Platform of products and Key Principal Mastercard Membership issuance abilities with Security State Bank and Hallmark Trust Limited. This includes credit/debit/prepaid card issuing, point-of-sale, ATM, and ACH processing capabilities, into several of IGT’s best-in-class casino systems products including IGT Advantage®, Cardless Connect™, PlaySpot™ and EZ Pay®.

The OmniCommerce® Software Platform is currently installed and operating in financial institutions in 17 countries and operates programs in multiple languages and currencies.

Craig Potts, Chairman and Owner of ICP, stated, “We continue to expand the ICP client list and our geographical reach. IGT is the leading end-to-end provider in the gaming industry and working with them positions ICP for significant new market opportunities.”

“Our partnership with IGT significantly enhances the consumer universe that has access to our unique card products and platform,” added Mr. Potts. “With the help of ICP technology, consumers will be able to transfer account balances to a card that allows them to spend, send or save their money globally. We expect this partnership to accelerate our growth in the coming years.”

“IGT’s partnership with ICP strengthens our systems portfolio with a cashless payment solution that our customers can leverage to differentiate their casino floors and gain robust business intelligence on and beyond the gaming floor,” said Sina Miri, IGT Vice President Casino Systems. “Our goal is to modernize the casino patron experience and eliminate unnecessary friction points such as physical player loyalty cards and cash-only commerce. The combination of the ICP-issued credit, debit, or pre-paid cards, IGT’s

Cardless Connect and cashless capabilities creates a highly desirable, contemporary and secure user experience that can elevate the player experience and enhance operational efficiencies.”

This partnership allows casino operators to create their own custom design and program terms, enabling them to enhance their branding while retaining all of the normal features and benefits of a credit, debit, or prepaid card program. Notably, the card program allows a casino to capture customer insights, creating a unique marketing database opportunity for the casino, and creating potential for a casino to generate additional revenue streams.

“IGT is committed to fueling our customers’ growth and providing solutions that can help them attract the attention of an expanded demographic of players, while meeting the changing needs of today’s player base. Cashless solutions such as what we have created with ICP establish a solid foundation for the next generation of gaming payment solutions,” added Mr. Miri.

## **About ICP**

Innovative Computer Professionals, Inc. a FinTech Corporation was started in 1996 as a computer consulting company with an emphasis on mainframe and client-server ATM and POS host systems. ICP developed its own proprietary credit card issuance and acquiring software platform with the OmniCommerce® Brand which was first installed at a financial institution customer in 2000 and is now being used in 17 countries and with multiple languages and currencies. ICP Inc.’s mission is to design, develop, and deliver innovative technology solutions through a commitment to integrity, service and quality to its customers while providing a safe, enjoyable, creative environment for its employees.

Craig Potts, the Chairman and Owner of ICP, has been involved in the financial services industry as an entrepreneur throughout his entire professional career for the last 25 years.

Craig Potts started Cash Systems Inc. in 1996 with a small loan and some refurbished ATM Machines. In less than 8 years Craig managed and built Cash Systems into the second largest cash access service provider in the casino gaming industry. Cash Systems (Nasdaq: CKNN) had annual revenues in excess of \$156 million and processed over \$3.5 billion of electronic financial transactions in the casino gaming industry. When Craig sold his majority interest in Cash Systems in 2005 the Company was providing financial services in more than 150 casinos and racetracks in multiple states and countries and had more than 250 employees.

Today Craig Potts owns Security State Bank of Aitkin, a 102-year-old Minnesota State Chartered and FDIC Regulated Bank with four branch offices and Hallmark Trust Ltd. of Turks and Caicos, a key principal member of Mastercard.
